To Quote Ford Myers, the renown career coach ...“One of the keys to managing your career effectively is to build and maintain a strong and varied network.”

Anyone who manages and hires people should carve out time for networking! 80% of the people who get hired are “referred” into an organization. An effective hiring manager has a strong network they can rely on to introduce them to their next great hire. Certainly, when you are looking for a job, you need to network; but this Hire One event is being built for employers (Managers and Recruiters) to have an opportunity to meet professionals from various careers (Energy, Information Technology, Healthcare, Financial Services, Manufacturing, Banking and others) to build relationships and a network of associates.

This is a business meeting, **not a job fair**. The meeting will include two 10 minute employer testimonials with the **rest of the time for connecting**.

Hors d’oeuvres and beverages available during the event. Cash bar opens at 5:00pm.

*This event is funded by the Chester County Workforce Development Board.*

Hire One, a CCEDC initiative, is a public/private partnership which provides employment services to the Health Care, Energy, IT/Communications, Life Science, Manufacturing and Agriculture industries.
